Applicants herewith amend the above-referenced PCT application, and request entry of the Amendment prior to examination on the United States Examination Phase.

IN THE CLAIMS:

On amended page 6:

replace line 1 with - WHAT IS CLAIMED IS:--;

Please replace original claims 1-7 with the following rewritten claims 1-7, referring to the mark-ups in Appendix A.

20

1. (Amended) A method for optimizing an amplitude-modulated optical signal, comprising the steps of:

generating said amplitude-modulated optical signal in a modulator by modulating an optical signal with a digital signal;

feeding said amplitude-modulated optical signal to a frequency discriminator which outputs a spectral distribution signal;

feeding said spectral distribution signal to a control device which is also fed an adjustable reference signal; and
